

Certifying Exam

Procedures List

Resuscitation

1. Medical resuscitation
2. Trauma resuscitation
3. Neonatal resuscitation
4. Pediatric resuscitation

Diagnostic and Therapeutic Procedures

1. Abdominal and gastrointestinal
 - a. Paracentesis
2. Cardiovascular and Thoracic
 - a. Cardiac pacing
 - b. Cardioversion
 - c. Defibrillation
 - d. Pericardiocentesis
 - e. Thoracostomy
(including small bore catheters)
3. Cutaneous
 - a. Wound closure
4. Head, Ear, Eye, Nose, and Throat
 - a. Control of epistaxis
 - b. Laryngoscopy
 - c. Slit lamp examination
5. Musculoskeletal
 - a. Arthrocentesis
 - b. Fracture/Dislocation immobilization techniques
 - c. Spine immobilization techniques
6. Nervous system
 - a. Lumbar puncture
7. Obstetrics and gynecology
 - a. Delivery of newborn

Anesthesia and Acute Pain Management

1. Regional anesthesia
 - a. Hematoma block
 - b. Femoral nerve block
 - c. Digital block
 - d. Dental block
2. Procedural Sedation in children and adults

Vascular Access

1. Arterial Line
2. Central Venous
3. Intraosseous line placement in children and adults
4. Umbilical Vessel Catheterization

Airway Techniques

1. Intubation
 - a. Direct laryngoscopy
 - b. Video-assisted laryngoscopy
2. Airway adjuncts
 - a. Use of an LMA
3. Surgical airway
4. Non-invasive ventilatory management
 - a. CPAP/BiPAP
 - b. High flow oxygen
 - c. Pediatric and Adult Bag Valve Mask Ventilation
