Candidate App Information Sheet

This picture shows the candidate screen in “Patient View.”

- All orders are placed verbally to the examiner
  - Examiner will control what shows on screen via his/her iPad
  - Candidate will have access to computer monitor and mouse
  - Paper and pencil will be available for notes

- Physical exam findings may be given verbally by the examiner

- Some findings or results of tests or exams may also be provided verbally by the examiner

- Some cases may have audio or video clips
  - You may ask the examiner to replay clips, if necessary, although doing so will take time away from your case
  - Note that some audio and video clips, such as cues, may not be available to the candidate to replay

- The vital signs might change at any point in the case and an audible alert will be given to let you know the vital signs have changed

- The rhythm strip can be enlarged by clicking on it
  - To pause, click on the two vertical bars in the lower left-hand corner of the enlarged rhythm strip box
  - To close, click on the red “X” in the upper left-hand corner of the enlarged rhythm strip box

- Stimuli Tray (left side of screen)
  - Click on any of the stimuli to open (active stimuli shaded in blue)
  - Stimuli will show in green if they have not been seen
    - There may be a delay from time ordered until stimuli are available
    - Stimuli are shaded black after they have been viewed and continue to be available for reference throughout the case
  - Patient View (HuGO)
    - This page is not interactive; it is simply a record of actions taken on the patient
    - You may return to HuGO at any time by clicking “Patient View” at the top of the stimulus tray
    - Yellow triangle - indicates something of significance that is visible when you enter the room
    - Red icons - what has been done to the patient (devices)
    - Blue icons – what has been given/administered to the patient (fluids, medications)

- X-Rays
  - Zoom and contrast slider bars on the bottom
  - Up and down scroll bar on right hand side of image
  - Side to side scroll bar on bottom of image

- Videos (CT Scans, ultrasounds, etc.)
  - You can pause the video and use the scrolling dial on your mouse to scroll through the images

- Laboratory Orders
  - Normal values are provided
  - Abnormal lab values are indicated with an asterisk
  - Metric and S.I. Units are provided

- Previous medical records may be available upon request
