

American Board of Emergency Medicine  
**2025 Spring Oral Certification Examination Scoring**  
**FREQUENTLY ASKED QUESTIONS (FAQs)**

- 1. What is the passing rate on this examination?** The recent passing rate for the Oral Certification Examination is 95%.
- 2. What is the passing score on this examination?** The passing score for this exam is 5.25.
- 3. How was the passing score determined?** The passing score was determined through a structured group process known as a standard setting. This process used clinically active emergency physicians and resulted in a recommended passing score of 5.25. The final passing score was then approved by the ABEM Board of Directors.
- 4. What is my percentile rank among all candidates who took the examination?** The Oral Certification Examination is a criterion-referenced examination, meaning that all candidates are judged against a predetermined standard, which is reflected in the passing score. The relative standing of an individual candidate is not relevant. Therefore, percentile rankings are not calculated and are not available.
- 5. If I did not pass, what is my next step?** You will automatically be notified via email of your future exam administration date. You also have the option of putting yourself on the waitlist for an upcoming exam. If you have any questions, please contact ABEM at [oralcertification@abem.org](mailto:oralcertification@abem.org) or 517.332.4800.
- 6. Can I obtain a hand score or a rescore of my examination?** No. Scores are automatically verified for all candidates.
- 7. How can I improve my performance?** ABEM cannot endorse any specific preparation course as this would be a conflict of interest for the Board. Successful candidates meet the Board's standards for practice as exemplified in the [EM Model](#) and [ABEM's KSAs](#). The Board recommends continued clinical practice, staying up to date with changes in the field, and ensuring familiarity with the ABEM's exam process.
- 8. Can I obtain information on areas that I can improve on or cases on which I performed poorly?** The Oral Certification Examination is designed to make a pass-fail determination and not to provide diagnostic information. For this reason, no diagnostic information is part of the score report.

If you have additional questions about your exam results, please contact the ABEM office.

American Board of Emergency Medicine  
3000 Coolidge Road  
East Lansing, Michigan 48823

Email: [abem@abem.org](mailto:abem@abem.org)
